FEV Consulting – Best of Two Worlds

FEV Consulting provides unique, client-oriented advisory services through the combination of years of experience in top management consulting and the technical expertise of the FEV Group. Our deep knowledge, of the automotive and aviation industries in particular, enables us to find innovative solutions for the complex challenges faced by our clients. Become part of our team!

At our location in Aachen we are looking for a Master student (m/f/d) for the topic:

Development of innovative Micromobility concepts

The mobility turnaround is just around the corner! Micro-mobility solutions are becoming increasingly important in shaping the future mobility experience. The focus is on products that complement current mobility solutions. As part of an innovative team, your tasks will include the conception of future solutions, the further development and elaboration of new near-series products as well as the supervision of prototype construction and the creation of production portfolios.

Would you like to take part in the course set of the mobility turnaround? We are looking forward to your application!

Your profile

- Above-average study performance in the field of construction
- Safe handling of CAD software
- Profound knowledge in the area of production experience
- Excellent analytical and communication skills
- High commitment and dedication
- Strong creativity and team spirit
- Very good written and spoken English skills

We offer

Design the mobility of tomorrow together with our customers. We offer you an exciting working environment, direct customer contact, an extensive network of expertise, intensive support and personal further development supported by your personal mentor.
